My Skills

My Work Experience

Zigvy Corporation	June 2020 - Feb 2022

Senior Software Engineer / Team Leader

- Build **Creaticode** with heart and help from **ReactJS-based MeteorJS**:
  A platform that provides programming lessons, comes with a **Scratch-based editor**, and is a playground for users to make friends and share projects with each other.
- Take part in implementing **Employee, Payroll and Report** modules in a company management system with **ReactJS, Redux**
- Develop a system providing Grab-like experience in Notary with **ReactJS** and **NestJS**
- My main roles:
  - Work closely with client and product owner to collect and understand requirements.
  - Make weekly plans and implement features with team members.
  - Code review and deploy applications with **Github Actions and AWS**

ANTS Programmatic	Mar 2019 - May 2020

Software Engineer

- Build an application for data aggregation, visualization and automated reporting using **ReactJS, Redux**.
- Work in a **NodeJS** team to implement **Restful APIs** using **ExpressJS, Redis, ElasticSearch and RabbitMQ**.
- Build a system for monitoring company applications using **ReactJS**.
- Monthly seminar about technologies.
